Dear Mark,

Thanks for your letter of the 7th and the enclosures.

Certainly sorry you got laid off! Hope something turns up for you soon.

The Gemberling material is interesting and the comment about me is silly. There are no words that can change the meaning of those of the Katzenbach memo.

It does appear that you cannot make the case it was Barrett, though.

You say you will sue the FBI for destroying evidence.

I'm not a lawyer but I think you'll have a tough time finding a basis for such a lawsuit.

Aside from finding the money for the costs.

Besides which, how can you prove that a) it was evidence and b) was destroyed?

I'd not seen those Dallas police records. Thanks for them

We hope all of you have a good holiday season ahea dna g g.d year after that,

sincerely,
